EDUCATION

University of Pennsylvania **Aug. 2026 – Dec. 2027**

Master of Applied Economics and Data Science

Relevant Coursework: Econometrics, Computational Methods

Vanderbilt University **Aug. 2024 – Aug. 2026**

Major: Economics, Minor: Data Science

Relevant Coursework: Applied Programming with Python, Machine Learning, Data Science, Economics of Risk, Game Theory.

University of California, Santa Barbara **Sept. 2022 – Jun. 2024**

Major: Economics Cumulative GPA: 3.91/4.00 (Top 5%)

Relevant Coursework: Calculus, Linear Algebra, Economic Statistics, Financial Accounting, Microeconomics, Macroeconomics.

Awards: Vanderbilt Dean's List (Fall 2024 – Spring 2025), UCSB Dean's Honor (Fall 2022 – Spring 2024)

INTERNSHIP EXPERIENCE

China Merchants Bank **Jul. 2025 – Aug. 2025**

Product Manager Assistant, Risk Management Department

- Conducted digitalized due diligence for loans by monitoring fund flows and credentials to evaluate default and prepayment risks.
- Conducted macro research and analysis of regional fiscal budgets (e.g., Zhejiang Province), utilizing R ggplot2 for data visualization to generate analytical reports for product design and forecast potential influence of economic policies and volatility of financial metrics.
- Developed an intelligent risk warning mechanism by building a case knowledge graph and implementing NLP-based text scanning with Python scripts, creating harbinger alerts triggered by keywords and statistical thresholds.

Tencent **Jun. 2025 – Jul. 2025**

Data Analysis and Program Management Intern, Sustainable Social Value Department

- Conducted behavioral and time-series analysis of donation data on the Tencent Public Welfare Platform, producing interactive visualizations for the ESG report and recommending strategies to enhance user retention, data integrity, and operational efficiency.
- Co-designed a mini-program linking elderly residents with volunteers, developing a task dispatch and feedback mechanism that optimized service matching and informed future resource allocation through real-time performance metrics.
- Coordinated the renovation of activity spaces for retired faculty at Shenzhen University, managing budget and logistics while restructuring workflows to improve cost-efficiency and project delivery timelines.

Caitong Securities **Jul. 2024 – Aug. 2024**

Quantitative Research Intern, Derivative Department

- Utilized pre-built Python modules for pricing, risk assessment, and trading strategies to support data and trade interface integration.
- Supported quantitative research teams through comparative analysis and performance visualization of various pricing and risk models.

Merit Interactive Co.Ltd **Jul. 2023 – Sept. 2023**

Data Analysis Intern

- Assisted front-end developers in utilizing JavaScript modules to build data pipeline-based tools for enterprise resource management.
- Enabled the data insight tool with machine learning algorithms to analyze user brand loyalty and conversion rates, contributing to the development of a digital marketing solution for sales and profitability improvement.

PROJECT EXPERIENCE

Information Asymmetry and Return Policy Abuse in E-commerce Platforms **Mar. 2025 – Apr. 2025**

- Collected sales and return data from e-commerce platforms including Amazon and Sephora using Python Web Scraper and Pandas.
- Interpreted adverse selection in return policies using information asymmetry and signaling theory, identifying consumer behavior patterns using Python Machine Learning toolkit and proposing data-driven countermeasures for merchants and platform managers.

The Impact of Epidemic Lockdowns and Public Health Policies on Mental Health Outcomes **Oct. 2024 – Nov. 2024**

- Applied the difference-in-differences (DID) approach on cross-sectional data to determine the causal effect of COVID-19 lockdown policies on mental health indicators, and visualized statistical findings by scatter and heat maps using ggplot2 in R.

SKILLS & INTERESTS

- Skills:** Python(Pandas, Numpy, Scikit-Learn), R (Ggplot2, Rvest, Dplyr), Adobe InDesign, Figma.
- Language:** Mandarin (Native), English (Proficient).
- Interests:** Dance(Hiphop, Modern Dance, Ballet, Jazz),Graphic Design, Scenography, Video Editing and Processing.
